Dept:_____

Station:_____

Training Code:_____

NOTES:

Think of the pain and suffering!

CHALLENGE

Each year there are over 80,000 firefighters seriously injured in the line of duty. With the excellent personal protective equipment available today, some injuries should not happen.

DISCUSSION

- What SOP's and SOG's could be established to help firefighters better identify the "risk zones" where PPE must be utilized?
- What positive actions should fellow firefighters take to help enforce PPE usage?

The greatest asset of the fire service is our people; protect them!
