TAKE 5 FOR SAFETY

5-MINUTE SAFETY DRILL

Risk Management : It's Your Call

Date:_____

Student:_____

Dept:_____

Station:_____

Training Code:_____

NOTES:

CHALLENGE

Winter has arrived this year and almost every region of the country has been served with heavy rain, flooding, snow and ice. These weather conditions dramatically impact the ability to render aid. With the large number of vehicles involved and snowy conditions, this is a major challenge! You have arrived on the scene in the early morning hours, it's your call!

DISCUSSION

- What personnel safety issues come to mind?
- How would you access the scene safely?
- How prepared is your department equipped to handle a large multi-vehicle chain reaction accident?
- Discuss how you would proceed with staging?
- You are the safety officer, what instructions do you have for your crew?

The greatest asset of the fire service is our people; protect them!
